Curriculum Vitae

June Seo Chang

jschang0215@snu.ac.kr

https://jschanginfo.netlify.app

Education

March 2021— *Present*	**Degree:**	Bachelor of Science in Computer Science and Engineering
	Where:	Seoul National University, Seoul, South Korea
	GPA:	0.0 of 4.3
	Minors in	

March 2018— *February 2021*	**Degree:**	High School Student in Science
	Where:	Daegu Science High School, Daegu, South Korea
	GPA:	4.23 of 4.3
	Graduated with alumni association award	

Research

March 2019— *November 2019*	**Project:**	DSHS R&E Program
	Where:	Kyungpook National University, Daegu, South Korea
	Advisor:	Prof. Daejin Park
	Contributions:	

- I proposed efficient hyperplane generation technique and applied robust dynamic string comparing algorithm, which reduced memory consumption and improved run time.

Publications

- Juneseo Chang et al. "Efficient Hyperplane Generation Techniques for Human Activity Classification in Multiple-Event Sensors Based Smart Home". In: *Journal of Embedded Systems and Applications* 14.05 (Oct. 2019), P277286. DOI: `10.14372/IEMEK.2019.14.5.277`. URL: `http://koreascience.or.kr/article/JAKO201931663568936.page`

Technical experience

Software

C/C++, Python, JAVA, LaTeX, Pytorch

Honors and awards

- Hansung Scholarship (2019)
